

TYCOKIT®

7762 EXXON STATION

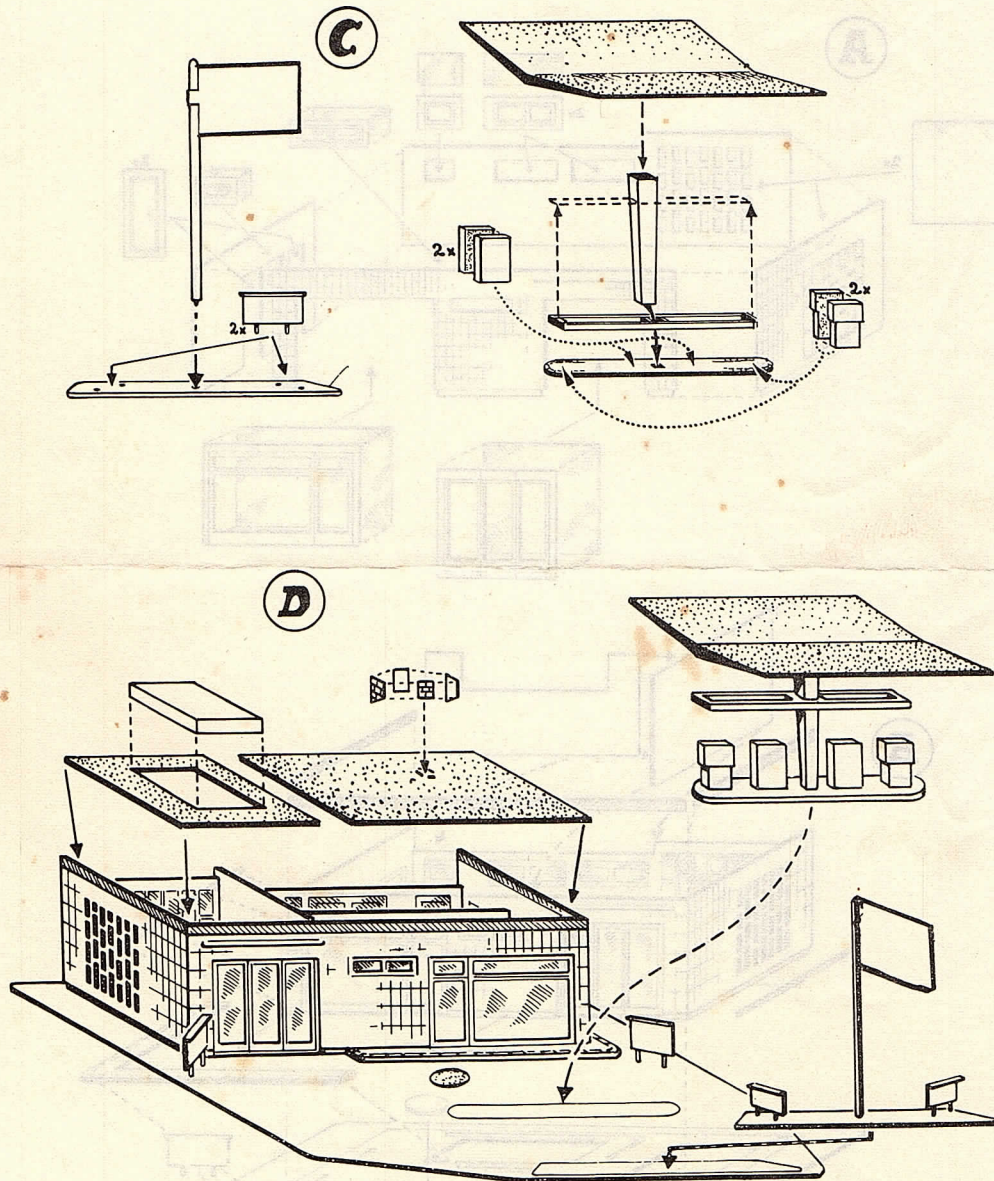

FOR BEST RESULTS * READ THIS FIRST ...

This kit is molded of styrene plastic and for best assembly results use only cements designed for this material. Cement is not included in kit. Apply cement sparingly. Excess cement, particularly on the outside of your kit, may damage the details. Do not let the cement touch Eyes, furniture, or clothing. Carefully trim any excess plastic from the parts before assembling. This will result in better fitting components. Do NOT break parts from their sprues — always cut them apart — otherwise you will have a rough and discolored spot where the break-off occurs.

 This kit is made of styrene plastic and for best assembly results use only cements designed for this material. Cement is not included.
 Do not brush paint from these spots - always cut them apart - otherwise you will have a rough and discolored spot where the break
 occurs.
 Do not use any furniture or clothing. Carefully trim any excess plastic from the base before assembling. This will result in better fitting components.
 In all apply cement sparingly. Excess cement particularly on the outside of joints will not dry and will damage the details. Do not let the cement touch
 the styrene plastic directly. Excess cement should be removed with a brush or cotton swab before assembly.
